---

## DUCHESNE ALUMINUM SIDING AND ACCESSORIES COMBINE QUALITY, PRACTICALITY AND GOOD LOOKS.

---

### THE PERFECT COMPLEMENT TO VINYL SIDING AND STEEL ROOFING AND SIDING

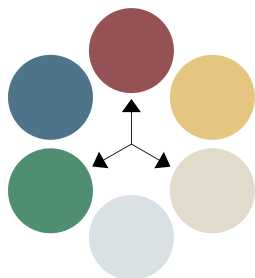

- Wide selection of dark and classic colours offered in a broad selection of complementary products
- Plain and woodgrain finishes
- Horizontal and vertical applications
- Complete range of mouldings and accessories
- Duchesne offers a unique colour match system in three complementary lines of exterior siding vinyl, aluminum and steel. **My Colour Universe®** system gives you the flexibility of combining different materials of the same or accent colour in one project.

### UNDENIABLE QUALITY AND DURABILITY

- Manufactured from top-quality aluminum
- High-quality baked paint finish that stands the test of time
- Meets or exceeds the applicable standards of the construction industry and the National Building Code
- Duchesne aluminum soffit ensures an optimal and secure ventilation reducing the risks of rotting, pest infestation and loss of energy

### EASY INSTALLATION AND MAINTENANCE

- Lightweight
- Easy to handle and to cut
- Minimal maintenance

### MY COLOUR UNIVERSE®

Duchesne offers a unique colour match system in three complementary lines of exterior siding — aluminum, vinyl and steel. **My Colour Universe®** system gives you the flexibility of combining different materials of the same or harmonized colour in one project.

# IMPORTANT NOTICE

## ALUMINUM AND PRESSURE-TREATED LUMBER

### ▼ GALVANIC SCALE

#### CATHODE

#### ANODE

Since the beginning of 2004, new pressure-treated lumber with ACQ replaces the old arsenic-laced pressure-treated lumber which was abandoned voluntarily by the Canadian manufacturers following agreements concluded with different government and environment organizations. Some manufacturers now offer the same quality and same longevity as the old treated lumber. The disadvantage of this new treated lumber relates to the corrosion of materials in direct contact.

When two metals are in direct contact in a moist environment, the less noble one (anode) will corrode. The second one (cathode) remains partly protected from corrosion. This phenomenon is called **galvanic corrosion** or galvanic cell effect. The further apart two metals on the galvanic scale, the higher the speed and importance of corrosion will be.

Since copper and aluminum are very distant on the galvanic scale, galvanic corrosion is at high risk. Indeed, the presence of copper in great quantity accelerates the corrosion of aluminum. **Therefore, you should not install aluminum materials on ACQ pressure-treated lumber to avoid damage due to premature corrosion.**

The degree of corrosion is dependant of many various factors. Some of the more relevant are, among others, salt, water, moisture content of wood, atmosphere and the presence of other melts such as steel or mechanically galvanized screws.

## PRODUCT INSPECTION BEFORE INSTALLATION

Any defect related to the appearance of siding products, mouldings and accessories must be communicated to Duchesne et Fils Ltée before the installation of the product.

Duchesne et Fils Ltée reserves the right to refuse any request for reimbursement of expenses related to the installation of the product (labor, equipment, etc.) for any defect that could have been detected before the installation.

## SERVICES

# DUCHESNE HOME VISUALIZER

## THE HOUSE OF YOUR DREAMS... A FEW CLICKS FROM REALITY!

Accessible on our web site, Duchesne Home Visualizer allows you to have a realistic visual overview of your construction/renovation project executed with Duchesne's exterior cladding/roofing products (steel, aluminum and vinyl).

The screenshot shows the Duchesne Home Visualizer interface. On the left, a 'PRODUCT LAYERS' sidebar lists 'Walls', 'Roofing', 'Soffit', and 'Fascia', each with a '+' icon. The 'Roofing' layer is currently selected and highlighted in red. The main area displays a 3D rendering of a two-story house with dark grey siding, white trim, and a dark roof. The house has a two-car garage and a front porch. Above the rendering, there are tabs for 'DESIGN' and 'REPORT', and a 'My New Project' header. To the right of the rendering, there are icons for 'My Snapshots', 'Before/After', 'Remove Products', and 'Download Image'. At the top right, there are links for 'SAMPLE HOMES', 'INSTANT DESIGN', 'DESIGN SERVICES', 'CREATE ACCOUNT', 'SIGN IN', and 'EN/FR'. At the bottom right, there are 'Save' and 'Share' buttons. Four numbered callouts are present: 1. 'Upload your own scene or use our model homes.' points to the 'INSTANT DESIGN' link. 2. 'Unleash your imagination by combining at will roofing, siding and trim products to Duchesne's expanded colour offer.' points to the 'Roofing' layer in the sidebar. 3. 'Save to view and change whenever you like.' points to the 'Save' button. 4. 'Share with your family and friends to get their feedback before your project is realized.' points to the 'Share' button.

Visit our web site [www.duchesne.ca](http://www.duchesne.ca) to start your project right away!

## CUSTOMER PORTAL

Order online quickly and efficiently with the Duchesne Customer Portal. Dedicated solely to dealers and accessible directly on [www.duchesne.ca](http://www.duchesne.ca) web site, this e-order platform allows you to :

1. Place your orders at the time and place that suits you.

2. Consult all your orders, current and invoiced, placed online or in a traditional way.

3. A training video is at your disposal to improve your user experience.

The screenshot shows the Duchesne Customer Portal interface. At the top, there is a navigation bar with links for 'HOME', 'HISTORY', 'PRODUCT CATALOG', 'HELP', and 'CART'. The 'HISTORY' link is highlighted. Below the navigation bar, there is a search bar and a 'Search' button. The main area displays a table of products with columns for 'ITEM NO.', 'DESCRIPTION', 'QTY', 'UNIT PRICE', and 'TOTAL PRICE'. The table lists various construction materials like 'Steel', 'Aluminum', 'Construction Nails', 'Collated Nails', 'Polyethylene Film', 'Wire Mesh', 'Reflective Insulation', and 'Vinyl'. On the left side, there are filters for 'CATEGORY', 'Finish', 'Length', and 'Format'. On the right side, there is a 'Finish order' button. Three numbered callouts are present: 1. 'Place your orders at the time and place that suits you.' points to the 'CART' link. 2. 'Consult all your orders, current and invoiced, placed online or in a traditional way.' points to the 'HISTORY' link. 3. 'A training video is at your disposal to improve your user experience.' points to the 'HELP' link.

Contact us at [communications@duchesne.ca](mailto:communications@duchesne.ca) to know more about the procedure to connect to Duchesne's Customer Portal.

# DUCHESNE PRODUCT SAMPLES

## TO MOVE FROM DREAM TO REALITY!

Whether to confirm a choice of colour or to visualize the rendering of a siding model, nothing compares to a genuine product sample. Duchesne product samples are available in a self-service mode at most building material dealers.

Visit your dealer and ask about Duchesne product samples. Bring a copy of your project executed with the Duchesne Home Visualizer and get a complete quote.
