

STANDARD

colours

Unique range of colours available in several gauges and easily matching Duchesne complementary exterior siding, trims and soffits, thanks to the My Colour Universe® system.

The colours displayed may differ from the actual colours. Samples are available at your local dealer. To confirm the colours and gauges available by profile, please refer to the availability chart at www.duchesne.ca.

EXCLUSIVE colours

Several colours, known as cool roof colours, offer energy-efficient performances, especially in summer, by keeping buildings cool.

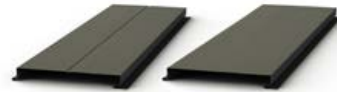

The colours displayed may differ from the actual colours. Samples are available at your local dealer.
To confirm the colours and gauges available by profile, please refer to the availability chart at www.duchesne.ca.

CONCEALED FASTENER steel profiles

BENEFITS OF CONCEALED FASTENER STEEL PROFILES

- ▶ 3 times more durable than traditional asphalt shingle roofs
- ▶ Minimal maintenance
- ▶ The design of the concealed fasteners (non-exposed perforation and screws) provides an excellent sealing
- ▶ Intermediate striation and rib options are an excellent way to reinforce the profile to reduce the risks of oil canning

SIDING

LCD 12

The concealed fastener system gives the LCD 12 a **smooth and modern look** that will appeal to designers wishing to give their commercial and industrial buildings a distinctive architectural flair.

ROOFING

AUTHENTIK™ - Multiple ribs

The AUTHENTIK™ profile with nail strip or clip system **features a trendy style** recalling the stamp of yesterday's traditional roofs.
▶ Also available with striations or flat.

CLASSIK™ - Flat

The CLASSIK™ profile combines the **charm of ancestral roofs** and the style of steel profiles with concealed fasteners.
▶ Also available with major rib or striations.

MAJESTIK™ - Striations

The MAJESTIK™ profile gives a unique character to any building with its **imposing ribs of batten style**.
▶ Also available with major rib or flat.

VISIBLE FASTENERS steel profiles

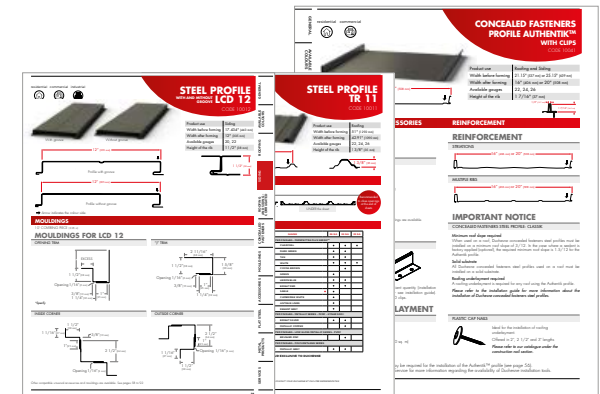

ROOFING & SIDING

Over 12 models of steel profiles for roof and/or wall applications that give a distinctive style and durability to any type of building.

CORRUGATED

The renewed popularity of the corrugated comes from its **look and its great versatility**. Its uniform and continuous curves offer endless possibilities of architectural design through the effects of texture, shading and symmetry they create.

TECHNICAL DATA SHEETS
