EXCLUSIVE

colours

Several colours, known as cool roof colours, offer energy efficient performances, especially in summer, by keeping buildings cool.

CONCEALED FASTENER

steel profiles

BENEFITS OF CONCEALED FASTENER STEEL PROFILES

- ▶ 3 times more durable than traditional asphalt shingle roofs
- ▶ Minimal maintenance
- ▶ The design of the concealed fasteners (non-exposed perforation and screws) provides an excellent sealing
- ▶ Intermediate striation and rib options are an excellent way to reinforce the profile to reduce the risks of oil canning

SIDING

NEW LCD 6 NEW LCD 8 NEW LCD 11 LCD 12

The concealed fastener system gives the LCD family a **smooth and modern look** providing a distinctive architectural flair to commercial and industrial buildings.

ROOFING

AUTHENTIK™ - Multiple ribs
The AUTHENTIK™ profile with nail strip or clip system **features a trendy style** recalling the stamp of yesterday's traditional roofs.
▶ Also available with striations or flat.

CLASSIK™ - Flat
The CLASSIK™ profile combines the **charm of ancestral roofs** and the style of steel profiles with concealed fasteners.
▶ Also available with major rib or striations.

MAJESTIK™ - Striations
The MAJESTIK™ profile gives a unique character to any building with its **imposing ribs of batten style**.
▶ Also available with major rib or flat.

ROOFING & SIDING

steel profiles

Over 12 models of steel profiles for roof and/or wall applications that give a distinctive style and durability to any type of building.

TR 11

The TR 11 profile's design, accented by grooves and ribs 1 3/8" high, gives **character and style** to commercial and industrial buildings. Its vast range of colours makes it possible to create harmonious colour schemes.

CRG 7/8 33.1

Multiple combinations thanks to the many gauges, widths and colours available. Greater margin of manoeuvre for profile overlapping. Ideal for any wall or roofing installation.

CRG 7/8 38.6

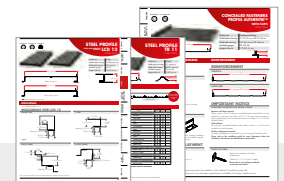

The renewed popularity of corrugated profiles is due to their **look and great versatility**. Their uniform and continuous curves, as well as their effects of texture, shading and symmetry, are in demand and offer infinite possibilities of architectural design for commercial, institutional and industrial buildings.

LC 27/29

The LC 27/29 profile offers several installation options, which makes it a **highly versatile siding**. It can be installed as wall or roofing siding and directly on the structure or on furring.

LC 31/33

The LC 33 profile's design features symmetrical lines accented by alternating ribs and valleys of 1 1/2". In addition, the exposed screw is virtually invisible due to its discreet location, thus **enhancing the building's beauty**.
