# BENEFITS

of concealed fastener profiles

## WIDE RANGE OF COLOURS AND MODELS

Including several colours exclusive to Duchesne et Fils.

## EXCELLENT PROTECTION AGAINST WATER INFILTRATION

The design of the concealed fasteners (non-exposed perforation and screws) paired with an impermeability membrane previously laid down on the installation surface provides an excellent sealing. Furthermore, it is possible at the production to add a sealant to insure a supplementary protection against water infiltrations.

## VERSATILITY

Our models can also be used for wall applications.

## DIFFERENT MODELS AVAILABLE

Intermediate striation and rib options are an excellent way to reinforce the profile to reduce the risks of oil canning.

## IN HARMONY WITH NATURE

Steel with recycled content and 100% recyclable that respects the environment and can earn you credits as part of a LEED® project.

Several colours, known as cool roof colours, offer energy-efficient performances, particularly in summer, by keeping buildings cool.

# OUR BRANDS

synonymous of style and refinement

## THE ORIGINAL CONTEMPORARY

The AUTHENTIK™ profile features a trendy style recalling the stamp of yesterday's traditional roofs.

## BEAUTIFUL TRADITION

The CLASSIK™ profile combines the charm of ancestral roofs and the style of steel profiles with concealed fasteners.

## PRESTIGIOUS

The MAJESTIK™ profile gives a unique character to any building with its imposing ribs of batten style.
